

PROYECTO PLANCC

PLANIFICACIÓN ANTE EL CAMBIO CLIMÁTICO

PHASE II

26th August 2015

Phases of PlanCC Project

Phase I

Scientific evidence generated in 6 sectors: Energy, Transport, Industrial Processes., Agriculture, Forestry and Waste.

5 scenarios and 77 mitigation measures.

2012 - 2014

Phase II

Contribute in the designing and elaboration of proposals for public policies, tools and methodologies for a low greenhouse gases (GHGs) emissions development.

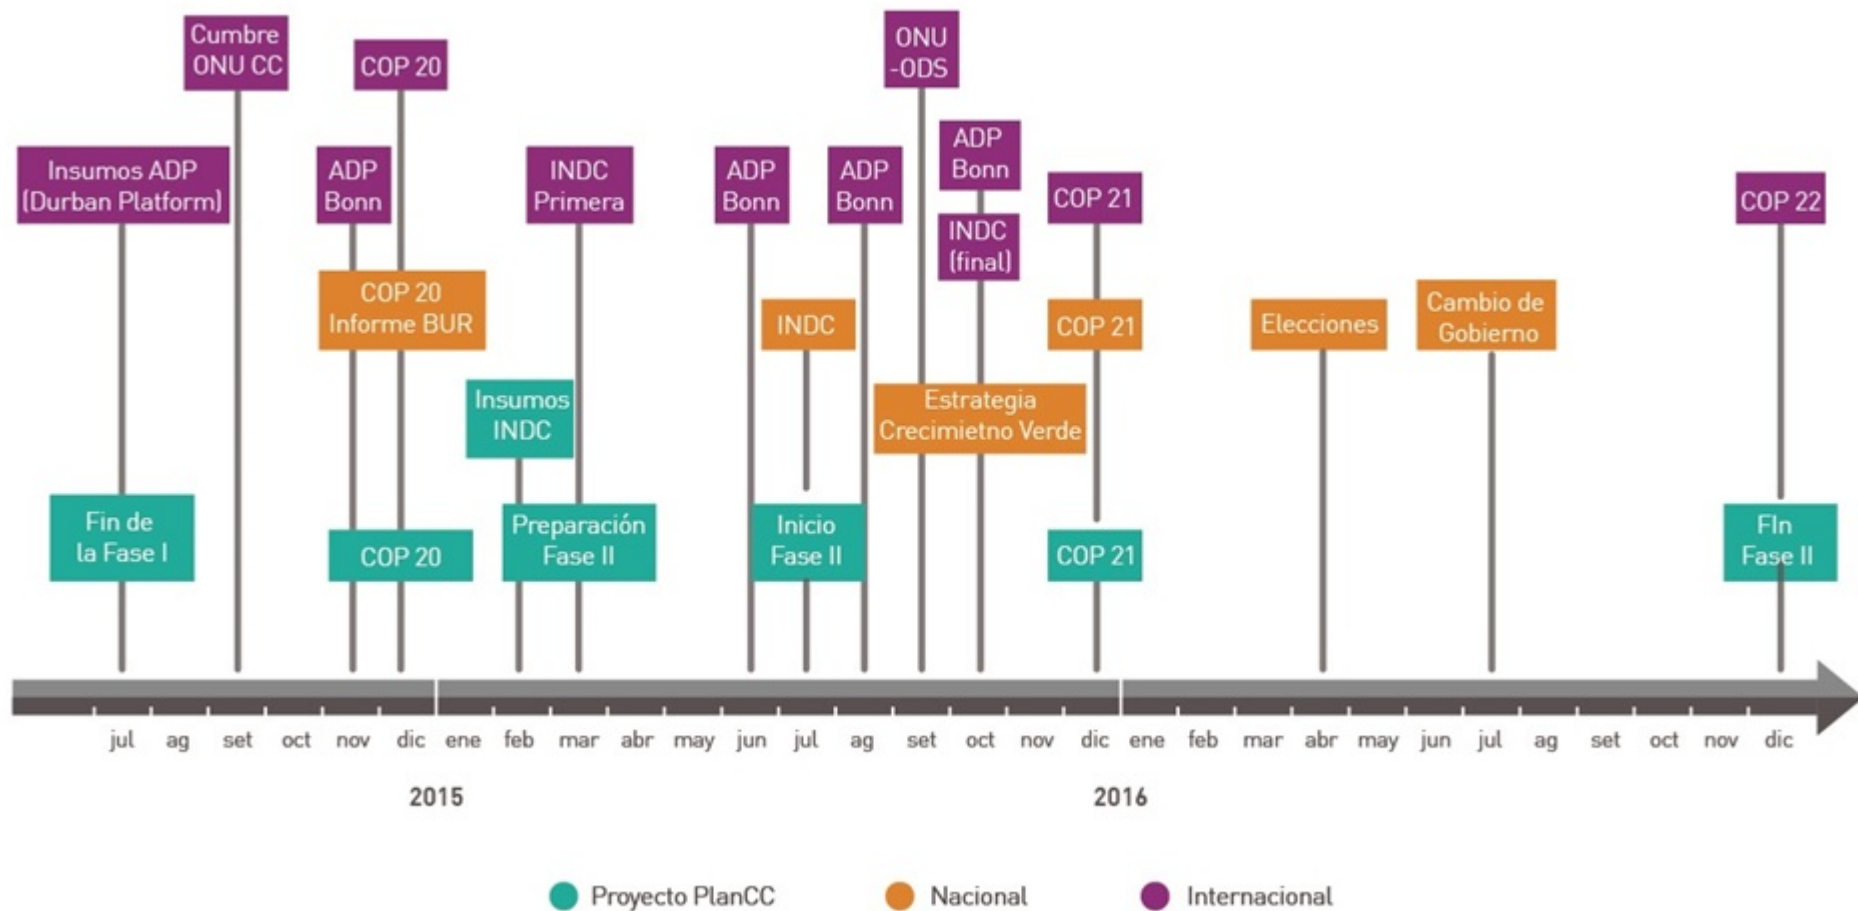

2015 - 2016

Phase III

Contribute to the implementation of prioritized mitigation measures.

2017 - 2020

Phase II of PlanCC project in the current context of international negotiations

Overall objective of Phase II of PlanCC Project

To contribute in the designing and elaboration of proposals for public policies, tools and methodologies for a low greenhouse gases (GHGs) emissions development, through the generation of solid evidence which serves as input for the decision-makers and encouraging participation of key stakeholders.

Specific objectives

1. To research and manage the existing knowledge about mitigation options to reduce GHG emissions that could serve as input for decision-makers.
2. To involve and articulate the key stakeholders in promoting the ownership of GHG emissions mitigation options which are within the spheres of their competence.

Scope: Components and Strategies

1. Research and knowledge management

- a. Generation, analysis and systematization of information on mitigation options.
- b. Design of an information service platform on public policy proposals and GHG emissions mitigation options.

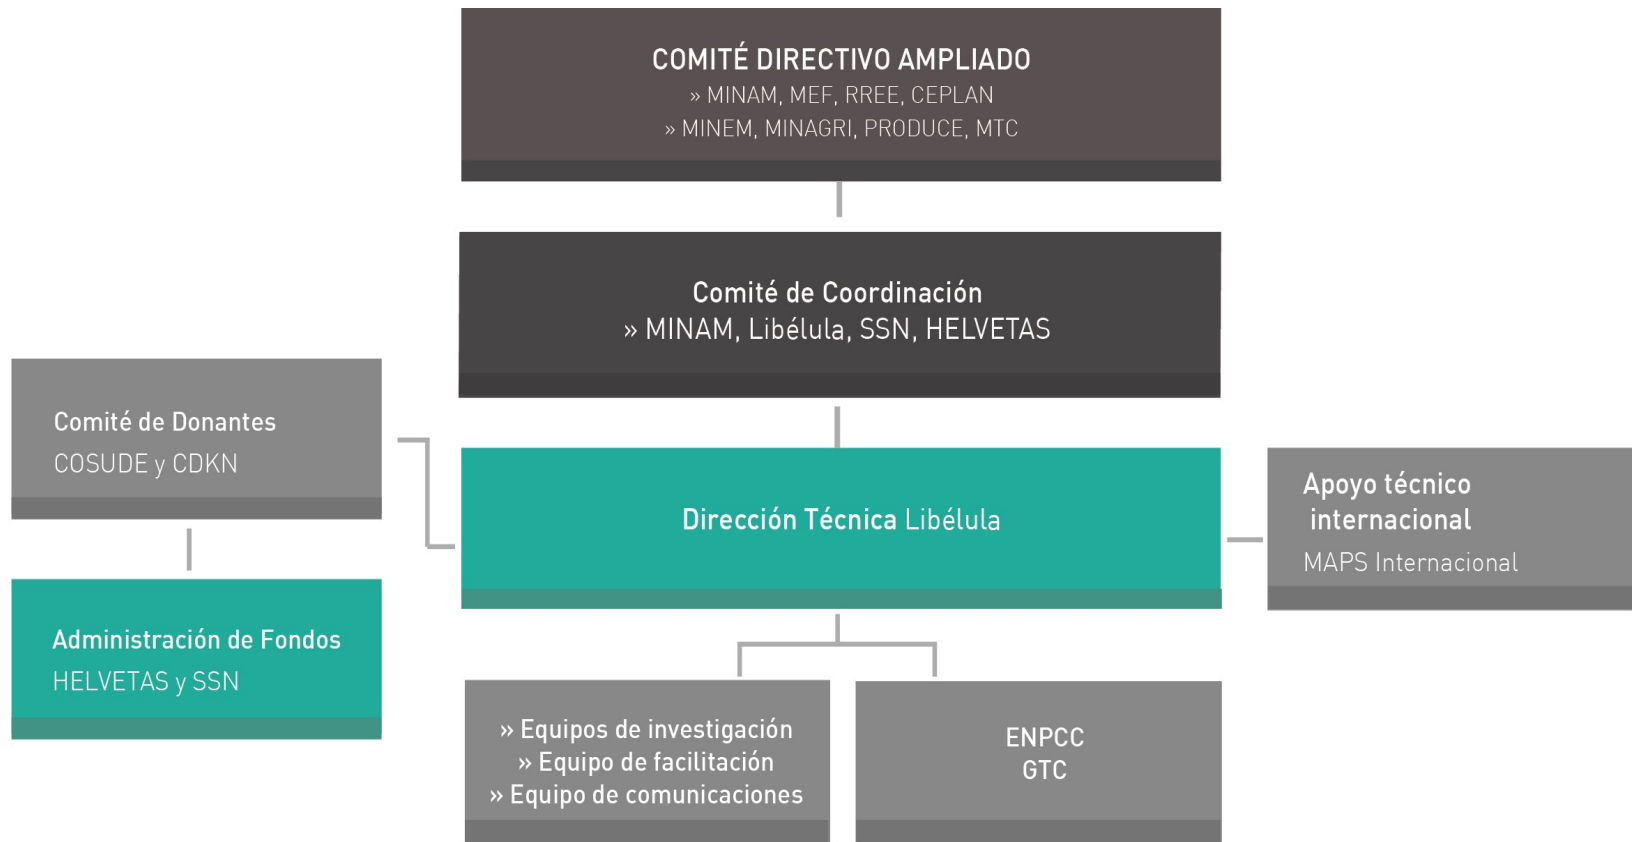

2. Engagement and articulation with key stakeholders

- a. Involvement with the sectors (agriculture, transport, energy, mining, industry, production), private sector and regional governments.
- b. Articulation of low emission strategies with other country development strategies (international, national and regional)

3. Communication and advocacy

- a. Design and implement a communication and advocacy strategy.

Institutional arrangement of PlanCC Project Phase II

ENPCC	→	Equipo Nacional de Prospectiva sobre mitigación del Cambio Climático
CEPLAN	→	Centro Nacional de Planeamiento Estratégico
GTC	→	Grupo Técnico Consultivo
MEF	→	Ministerio de Economía y Finanzas
MINAGRI	→	Ministerio de Agricultura

MINAM	→	Ministerio del Ambiente
MINEM	→	Ministerio de Energía y Minas
MTC	→	Ministerio de Transportes y Comunicaciones
PRODUCE	→	Ministerio de la Producción
RREE	→	Ministerio de Relaciones Exteriores

The Expanded Steering Committee

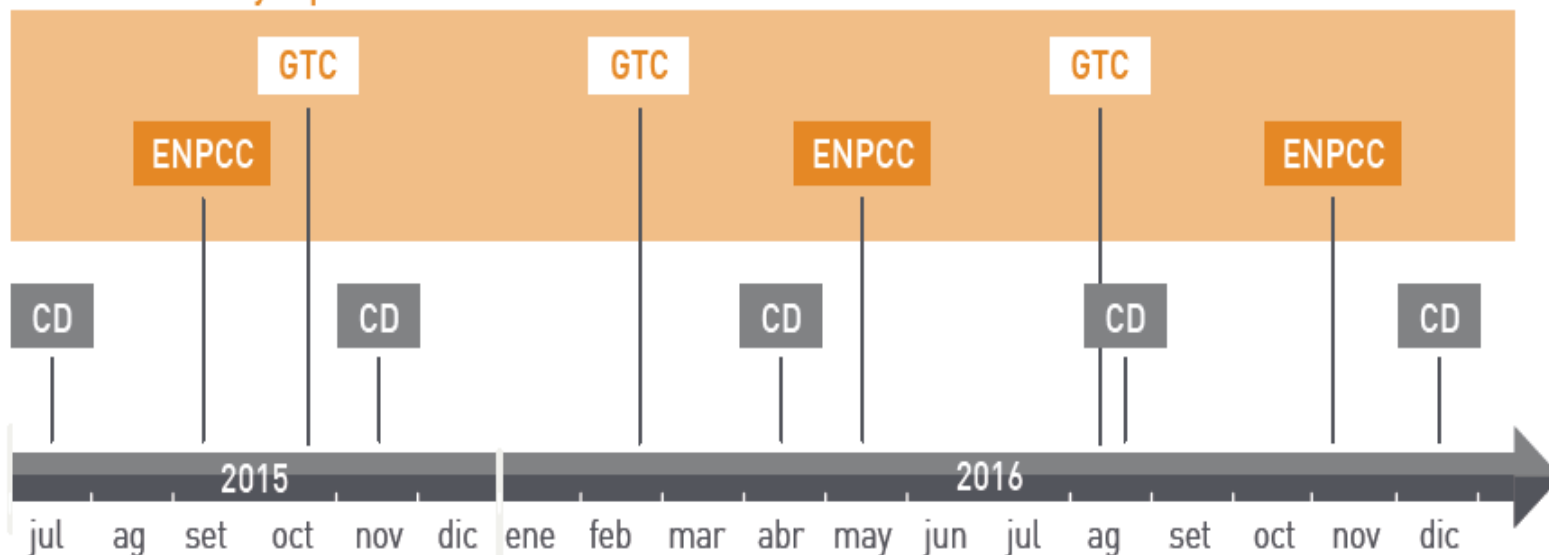

- The expanded Steering Committee consists of the original Steering Committee, which is chaired by the Ministry of Environment and includes the Ministry of Economy and Finance, the Ministry of Foreign Affairs, the Center for National Strategic Planning, and will include the Ministries of Energy and Mines, Agriculture and Irrigation, Production, and Transport and Communications.
- The function of the Expanded Steering Committee will be to provide strategic guidance to PlanCC Project in its second phase. It will hold a regular meeting at least every three months, and will be chaired by MINAM.
- The Expanded Steering Committee may invite other stakeholders to participate in the meetings if deemed appropriate.

Timeline for Phase II of PlanCC Project

Comunicación e incidencia

Investigación y gestión del conocimiento

Involucramiento y capacitación

CD Comité Directivo

ENPCC Equipo Nacional de Prospectiva de Cambio Climático

GTC Grupo Técnico Consultivo
